## **MARITIME CONNECTIONS FOR TRANSPORT OF TRUCKS, TRAILERS, CONTAINERS, PROJECT CARGO, REEFER CARGO AND DANGEROUS GOODS**

Founded in 1947, Grimaldi Group is a leader in maritime transport with one of the biggest fleet of ro-ro ships in the world, for the transportation of trucks, trailers and exceptional vehicles.

During recent years, Grimaldi Group has developed an extensive network of maritime connections – the so called, “Motorways of the Sea”. These routes are connecting Italy, Spain, Greece, Tunisia, Malta, Libya and Morocco.

The main purpose of these routes is to offer transport and logistic operators competitive and efficient shipping solutions, with reliability, punctuality, safety and cost savings at the forefront of operations as required by the global market.

# ...in the Mediterranean and in Europe

# The advantages of our services

## Cost savings

Maritime transport of full trucks and trailers allows to save roughly the half of the costs normally necessary via road, thanks the lower expenses for fuel and the lower wearing of the vehicles.

With the ships it is possible the "unaccompanied system" which, through the embarkment of the single trailer, optimise the logistic use of the tractors, allowing better efficiency and reducing transport costs.

## Speed and punctuality

By embarking onboard the ships, all trucks avoid the traffic and the long motorways queues, reducing transit time. All units can also travel during national holidays, in summer time, and during road restrictions for work in progress and road maintenance.

With an average speed between 22 and 28 knots, the ships assure full respect of delivery time at discharging destinations.

## Driver safety

All driver can rest during the trip and arrive at destination with the digital tacograph at "zero", in full accordance with driving rules. Moreover, travelling on the ships, truck drivers avoid to be victims of thefts or aggressions during their drive-breaks.

## Cargo safety

During navigation all trucks and cargo are kept under video-surveillance 24 hours per day. Port terminals are directly managed from Grimaldi Lines personnel and fully equipped with entrance / exit video - control systems.

## Advantages for Drivers!

# REDTORTUGA

Grimaldi Lines is partner of Red Tortuga!

Discover all offered services on [www.redtortuga.com](http://www.redtortuga.com)  
Tel: +34 935 572 277

## Travel with the Long Bridge!

Thanks the partnership with Minoan Lines, greek company member of Grimaldi Group, it is possible to move from Spain and Portugal directly to Greece and Balkans area through the "Long Bridge" system, which allows transport companies to make one booking and to pay only one reduced tariff for two maritime passages: from Barcelona to Livorno or Civitavecchia and from Ancona or Brindisi to Igoumenitsa or Patras.

Leaving from Barcelona, the trucks arriving at Livorno or Civitavecchia will follow their route to Ancona or Brindisi where they can depart to Greece. With the Long Bridge system there is a bridge in the Mediterranean which connects the west with the east of Europe.
